Description

A couple of troubleshooting questions regarding the Battle Quest minigame for Nintendoland.
I have attached some pictures below.:

```
1.) Is there a work around for the "Wiimote pair" message?
```

The message says: "The wii remote is not connected correctly. Pair the Wii Remote via the HOME Menu."

```
2.) Battle quest is giving me a pink glitch around all the characters.
```

Any advice on fixes?
