

Cemu - Feature requests #101

Should have "Use global setting" for "Edit game profile"

I haven't done typing yet, pressing the Enter button accidentally and there's no way deleting the issue on here.

So, in the **Edit game profile**, each drop-down list should have *Use global setting*, especially the **GPU buffer cache accuracy** where you can select Low/Med/High to test the performance/bugs -- it is greyed out because of **Edit game profile**.

#2 - 07/03/2019 11:48 PM - Zalnor

- *Category set to UI*

#3 - 03/27/2020 04:15 AM - Zalnor

- *Status changed from New to Closed*

Global settings have been mostly separated/removed from cemu. This request is now invalid.
