

Cemu - Feature requests #139

Auto hide duplicate graphics packs

<b>Description</b>			
I have a lot of graphics packs labeled "[graphics pack] #2" that seem to perform the exact same function as their non- <a href="#">#2</a> version. It'd be nice if Cemu could hide or delete them to make the Graphics Pack lists less cluttered.

This is because you manually downloaded and installed graphic packs in the past and didn't remove them when we transitioned to the auto-download system. The latter will not replace any manually installed packs, thus you end up with a lot of duplicates.

To fix it, delete everything in the graphicPacks folder and then use only the download button in Cemu to get the latest packs.
