

Cemu - Bug #150

Downloading graphics packs blats you current graphic pack selections

07/24/2019 09:08 AM - leafo

| Cemu Version: | |
| Description | |
| <p>OK - So I went through and set up all my graphic packs just how I wanted them, then decided to download the latest community graphics packs.</p> <p>After the download completed, I had lost all the changes I had made.</p> <p>If close and re-open the graphic packs window before hitting the download button, this doesn't happen.</p> | |
