

## Cemu - Feature requests #241

### Have Cemu remember the screen size/position between the Game List and when Playing a Game

01/01/2020 02:04 AM - Serfrost

<b>Cemu Version:</b>	1.16.1		

#### Description

With the introduction of the different gamelist styles, changing the emulator window to fit your preference works nicely..

However, when you full-size the window and have to close Cemu or it crashes, it sets the game list to full screen, etc.

If this happens, I'd like the window to remember what size it was before the game was started.
