

Cemu - Bug #254

A change of Game List Style reverts a "custom game title" back to it's original name

01/07/2020 08:48 PM - The1stOne

Status: Resolved	Start date: 01/07/2020
Priority: Normal	
Assignee: Petergov	
Category: UI	
API: OpenGL, Vulkan	GPU Vendor/Model: GeForce GTX 1660 S
Cemu Version: 1.16.1	
Description A small bug in the UI when altering between the different Game List Styles (List, Icons, Small Icons). If I have renamed game(s) (set a "custom game title"), changing between the styles makes the name revert back to it's original name. It can be remedied by a "Refresh game list" or by restarting Cemu.
