

Cemu - Feature requests #257

Vulkan Anisotropic Filtering Option

01/18/2020 01:18 AM - LemonKing

Status:	New	Start date:	01/17/2020
Priority:	Normal		
Assignee:			
Category:	Graphic		
API:	Vulkan	GPU Vendor/Model:	
Cemu Version:	1.16.1		
Description <p>Anisotropic Filtering would vastly improve image quality without the shimmering which occurs from the Negative LOD hack. This cannot be done via a graphics pack since Anisotropic Filtering would need to be set by the Vulkan API when the sampler is created.</p> <p>References:</p> <p>https://www.khronos.org/registry/vulkan/specs/1.2-extensions/man/html/VkSamplerCreateInfo.html</p> <p>https://vulkan-tutorial.com/Texture_mapping/Image_view_and_sampler#page_Anisotropy-device-feature</p>
