

Cemu - Bug #261

Vulkan Mario Kart 8 Black Screen Issue

01/21/2020 12:33 AM - gman

Status:	Resolved	Start date:	01/21/2020
Priority:	Normal		
Assignee:			
Category:	Graphic		
API:	Vulkan	GPU Vendor/Model:	AMD RX 570
Cemu Version:	1.16.1		
Description			
When completing a cup or exiting back to the main menu and a fade to black transition is applied, sometimes the display remains black even when the transition has ended. Exiting fullscreen and re-entering fullscreen solves this issue.

- Status changed from New to Resolved

Due to lack of user reports with recent versions I will mark this as resolved.
