Cemu Version: 1.19.1b	
Description	
Steps:	
<ul style="list-style-type: none">• Open Cemu (no need to open a game)• Minimize it, or, click on another program and keep your mouse out of Cemu• Right-click Cemu in the taskbar and click 'Close window'	
It won't close until Cemu is brought back up, or, the mouse is hovered over Cemu in case you only clicked on another program.	
I had one person who reproduced it and one who couldn't. (Same version as mine)

I and friends could not reproduce this running latest windows 10. This is most likely an issue with either your windows version or some third party program.
