Cemu Version: 1.20.0c	
Description	
<p>Hello, I had the error on this link http://bugs.cemu.info/issues/382#change-572 (i make a user with fake email and lost the password, sorry)</p> <p>I tried everything Zalnor said but it didn't work, but I was able to fix the error, the path length of the game folder, I think it was, because I changed the game path closer to the root and it works, I tried this solution because when i reinstalled cemu trying to fix the error i had the same problem installing zelda bottle update, path length of update folder</p> <p>As a possible feature in the future, CEMU checks the path length to show error in loading games and update, etc?</p> <p>Thanks Zalnor for your time answering the problem and sorry for the bad English</p>
