Description			
during the game in some stages, the scenario is pixelated			
Intel® Core™ i5-7200U CPU @ 2.50GHz			
Intel® HD Graphics 620			

History

#1 - 04/12/2021 01:18 AM - Serfrost

- Subject changed from Mario Kart 8 OpenGL API, 2 players, Bug pixels on the screen during the game to Intel iGPU - Mario Kart 8 - Splitscreen - Other player visually glitches out during race.
- Category set to Graphic
- Status changed from New to Feedback

Intel iGPU drivers hate Mario Kart 8; our Devs aren't sure why. Make sure to try new Cemu updates and keep your GPU driver updated. There's not much that can be done for now, especially by the enduser.
