<b>Cemu Version:</b>	
<b>Description</b>	
<p>It would be nice to have a in app window that would show you what different hot keys are, such as F12 for screenshot, and ctl+tab for switch to gamepad view.</p> <p>This could also explain gyro control using mouse, and list all available command line arguments.</p> <p>Might also be nice to have an option to show this on the getting started window.</p>
