- Status changed from New to Closed

The previous feature request was removed as it was old, and we had already discussed this with our developers. You should not recreate a feature request just because it was removed. There are no plans to provide support for any **extra** container formats. If you want to use a single file format, please dump your games in WUD format and then compress them to WUX. You will require the title key in keys.txt to make use of WUD or WUX copies of content.
