

## Cemu - Feature requests #96

### Add a one button hotkey that saves HD screenshots to a folder

06/21/2019 01:49 AM - Icarusu

<b>Cemu Version:</b>	
<b>Description</b> Pressing the hotkey not only copies the HD screenshot to the clipboard but also saves it automatically to a folder either as a .bmp or a .png. Personally i think this would be a great quality of life feature that would save time and not ruin timing for other possible future screenshots, because in lots of moments you can't just pause and even if you do if you didn't take the perfect picture it's forever ruined.
