Cemu Version:			
Description			
In Legend of Zelda: The Wind Waker HD there is a sidequest involving taking pictures with the pictobox and showing them to people. Currently there is a bug where the recipient of a pictograph will never accept the picture, rendering the sidequest and by extension 100% completion impossible on Cemu.

This is a known long standing issue, there is no fix for it yet, however you can use a workaround gfx pack included in the repo to make Lenzo accept any photo, allowing you to finish the quest.
