Status:	Closed	Start date:	09/27/2020
Priority:	Normal		
Assignee:			
Category:	General		
API:	Vulkan	GPU Vendor/Model:	rx 580
Cemu Version:	1.21.2		
Description			
when i change my graphic packs (setting the resolution to 1920x1080, changing the average fps or the preset for clarity) cemu crashes. Everything worked until about 6 months ago

Uninstall NetSight (or whatever software you have installed from Nielsen)
It hooks into Cemu and makes it crash for some reason

Closing this since there is no way for us to add a workaround. It's an issue on their side.
