Description			
<p>Hello! After trying to un region lock a copy of my game, I gave up, dumped it and tried to use cemu instead. It works fine enough when it does run, however towards the end of chapter 1 i get an erreula with constant question marks. So far i tried both renders and the online option, but it still pops up.</p> <p>https://www.youtube.com/watch?v=SYhSXdFG_t8 <- video of it happening</p> <p>Enjoy your day! :)</p>
