Description

Whenever i play the game Guitar Hero Live on the latest version of Cemu (as of writing this)

I get this error in the log.

[01:19:00] NEX: Error 0x00000000 in login response
[01:19:00] NEX: Error during authentication

I believe this is preventing the online part of the game working.

The latest version of Cemu has actually fixed the freezing and i believe this is the only issue before the game is 100% playable online for anyone who wants to play on Cemu and have leaderboards.
