Description			
When trying to connect online using CEMU 1.26.0d I get either crash or error saying Error-Code: 106-0526 but when I use CEMU version 1.22.8 connecting to online works perfectly without saying Error-Code: 106-0526. Other titles seem to work fine e.g mario kart 8. I've tried nearly every version after 1.22.8 and they all cause this issue.
