

Cemu - Bug #671

Cemu doesn't load properly and has problems with accessing the file system and pixbuf.

01/07/2023 09:17 AM - Alex

Status:	New	Start date:	01/07/2023
Priority:	Normal		
Assignee:			
Category:	General		
API:		GPU Vendor/Model:	
Cemu Version:	2.0		
Description			
<p>When launching cemu for the first time, it told me to set the game and mlc directory but selecting other just caused it to crash. This is the terminal output(I have already tried to redownload pixbuf and update the mime database but it didn't work):</p>			
<p><u>Start</u></p>			
<pre>(Cemu:11209): Gtk-CRITICAL **: 14:31:44.777: gtk_box_gadget_distribute: assertion 'size >= 0' failed in GtkScrollbar</pre>			
<pre>(Cemu:11209): Gtk-WARNING **: 14:31:48.930: Could not load a pixbuf from /com/ubuntu/themes/Yaru-dark/3.20/assets/check-symbolic.symbolic.png.</pre>			
<p>This may indicate that pixbuf loaders or the mime database could not be found.</p>			
<pre>MESA-INTEL: warning: Performance support disabled, consider sysctl dev.i915.perf_stream_paranoid=0</pre>			
<pre>**</pre>			
<pre>Gtk:ERROR:../../../../gtk/gtkiconhelper.c:494:ensure_surface_for_gicon: assertion failed (error == NULL): Failed to load /usr/share/icons/Yaru/16x16/status/image-missing.png: Fatal error reading PNG image file: Invalid IHDR data (gdk-pixbuf-error-quark, 0)</pre>			
<pre>Bail out! Gtk:ERROR:../../../../gtk/gtkiconhelper.c:494:ensure_surface_for_gicon: assertion failed (error == NULL): Failed to load /usr/share/icons/Yaru/16x16/status/image-missing.png: Fatal error reading PNG image file: Invalid IHDR data (gdk-pixbuf-error-quark, 0)</pre>			
<pre>Aborted (core dumped)</pre>			
<p><u>End</u></p>			
<p>I skipped that part and when it was auto updating, cemu couldn't extract the files. I had to force quit it. It also seems to have problems with the files. This is the terminal output for that:</p>			
<p><u>Start</u></p>			
<pre>(Cemu:10002): Gtk-WARNING **: 14:04:06.939: Could not load a pixbuf from icon theme.</pre>			
<p>This may indicate that pixbuf loaders or the mime database could not be found.</p>			
<pre>(Cemu:10002): Gtk-CRITICAL **: 14:05:23.025: gtk_box_gadget_distribute: assertion 'size >= 0' failed in GtkScrollbar</pre>			
<pre>MESA-INTEL: warning: Performance support disabled, consider sysctl dev.i915.perf_stream_paranoid=0</pre>			
<pre>Killed</pre>			
<p><u>End</u></p>			
<p>I have a Ubuntu 20.04 LTS laptop with 4 gb ram, Intel i3-5005U and Intel i3-5005U. Don't judge me. Thanks in advance. Btw I am running Cemu 2.0 (experimental) and couldn't find the log file so I pasted the Terminal output.</p>
