Cemu Version: 2.0-79	
Description Hi there! Trying to connect to Pretendo on the latest version Cemu 2.0-79 on Linux, but it returns the error: [17:56:05.791] HTTP request received response 403 but expected 200 [17:56:05.791] Failed request /oauth20/access_token/generate [17:56:05.791] ACT_GetNexToken(): Failed to retrieve OAuth token One thing to note: this is only an issue on 2.0-79, the Linux build of 2.0-78 works just fine online.
